Robert,

Water hauling operations are beginning for AQ. I'm participating in a 1400 public meeting in Farmington to address Farming / AQ issues (with Region 6). We have 10 water trucks and will hopefully start transporting water ASAP (once we get names and locations).

I am also expecting the need to purchase and distribute feed for livestock. Since livestock are being restricted from the river, they are being contained to a smaller number of grazing fields. We will need to augment the feed source.

an ERRS foreman will be coming in to support these operations

I've ordered up 2 additional START to support these operations.

Expecting additional funding needs for ERRS
